Category index of volume 75

C Mathematical and Quantitative Methods

J. Hahn and J. Hausman, Notes on bias in estimators for simultaneous equation models (C3) 237
A. Inoue, Identifying the sign of the slope of a monotonic function via *OLS* (C10)419
D.W. Shin and B.S. So, Recursive mean adjustment and tests for nonstationarities (C12)203
T. del Barrio Castro, E. Pons Fanals and J. Suriñach Caralt, The effects of working with seasonally adjusted data when testing for unit root (C12)249
J.V. Pepper, Robust inferences from random clustered samples: an application using data from the panel study of income dynamics (C12)341
P.A. Shively, An exact invariant variance ratio test (C12)347
C.D. Orme and P.A. Ruud, On the uniqueness of the maximum likelihood estimator (C13)209
J. Hahn and G. Kuersteiner, Discontinuities of weak instrument limiting distributions (C13)325
D. Li and T. Stengos, The partially linear regression model: Monte Carlo evidence from the projection pursuit regression approach (C14) 11
M. Lanne and H. Lütkepohl, Unit root tests for time series with level shifts: a comparison of different proposals (C22)109
J.C. Morley, A state–space approach to calculating the Beveridge–Nelson decomposition (C22)123
S. Fountas, M. Karanasos and J. Kim, Inflation and output growth uncertainty and their relationship with inflation and output growth (C22)293
K.D. West, Efficient GMM estimation of weak AR processes (C22)415
R. Lucchetti, Inconsistency of naive GMM estimation for QR models with endogenous regressors (C25)179
P. Telhado Pereira and P. Silva Martins, Is there a return–risk link in education? (C29) 31
P. Frijters, The non-parametric identification of lagged duration dependence (C41)289
C.R. Marques, P.D. Neves and A.G. da Silva, Why should Central Banks avoid the use of the underlying inflation indicator? (C43) 17
J.M. Sarabia, E. Castillo and D.J. Slottje, Lorenz ordering between McDonald's generalized functions of the income size distribution (C49)265
M. Besada and M. Mirás, A note on Lagrange multipliers in the multiple constraint case (C61)141
C.E. Weber, Household production and complementarity: an example based on Samuelson's coffee–cream–tea paradox (C61)277
V.P. Crawford, John Nash and the analysis of strategic behavior (C70)377
C. Noussair, S. Robin and B. Ruffieux, Do consumers not care about biotech foods or do they just not read the labels? (C91) 47

D Microeconomics

B. Moreno, Single-peaked preferences, endowments and population-monotonicity (D6) 87
O. Moav, Income distribution and macroeconomics: the persistence of inequality in a convex technology framework (D31)187
G.S. Fields, J.B. Leary and E.A. Ok, Stochastic dominance in mobility analysis (D31)333
L. Thomas, Non-linear pricing with budget constraint (D42)257
G. Fibich, A. Gavious and A. Sela, Low and high types in asymmetric first-price auctions (D44)283
A. Wambach, A simple result for the revenue in share auctions (D44)405
J. Matheron, The welfare cost of monopolistic competition revisited (D61)129
J.P. Carpenter, Information, fairness, and reciprocity in the best shot game (D63)243
J.L. Vigdor, Interpreting ethnic fragmentation effects (D64)271

Elsevier Science B.V.
PII: S0165-1765(02)00073-3

G. Aşan and M.R. Sanver, Another characterization of the majority rule (D71)409
W. Schnedler, The virtue of being underestimated: a note on discriminatory contracts in hidden information models (D82)171
W.T. Smith, Consumption and saving with habit formation and durability (D91)369

E Macroeconomics and Monetary Economics

N. Liviatan, The paradox of indexed money substitutes (E5) 199
A. Razin and C.-W. Yuen, The 'New Keynesian' Phillips curve: closed economy versus open economy (E12) 1
M. Arrazola and J. de Hevia, An alternative measure of core inflation (E31) 69
T.M. Andersen and E. Toulemonde, Imperfectly competitive labour markets and the productivity puzzle (E32)115
L.A. Gallagher and M.P. Taylor, The stock return–inflation puzzle revisited (E44)147
D.G. Freeman, Did state bank branching deregulation produce large growth effects? (E44)383
J. Zeng and J. Zhang, Long-run growth effects of taxation in a non-scale growth model with innovation (E62)391

F International Economics

J. Gilbert and E. Tower, Protectionism, labor mobility, and immiserizing growth in developing economies (F11)135
A. Abbott and G. De Vita, Testing the long-run structural validity of the monetary exchange rate model (F31)157
A. Hughes Hallett and L. Piscitelli, Does trade integration cause convergence? (F40)165

H Public Economics

P. Makdissi and Q. Wodon, Consumption dominance curves: testing for the impact of indirect tax reforms on poverty (H20)227
B. Salanié, Optimal demogrants with imperfect tagging (H21)319

I Health, Education, and Welfare

W. Sander, Religion and human capital (I2) 303

J Labor and Demographic Economics

B.J. Heijdra and J.E. Ligthart, The hiring subsidy cum firing tax in a search model of unemployment (J3) 97
M. Das and T. Sjogren, The inter-generational link in income mobility: evidence from adoptions (J12) 55
M. Hazan and Y. D. Maoz, Women's labor force participation and the dynamics of tradition (J16)193
I. Kubin and A. Prinz, Labour supply with habit formation (J22) 75
D.L. Wetzell, On some unappreciated implications of Becker's time allocation model of labor supply (J22)219
B. Amable and D. Gatti, Macroeconomic effects of product market competition in a dynamic efficiency wage model (J41) 39

K Law and Economics

T.L. Cherry and J.A. List, Aggregation bias in the economic model of crime (K42) 81

L Industrial Organization

R.I.D. Harris and P. Hassaszadeh, The impact of ownership changes and age effects on plant exits in UK manufacturing, 1974–1995 (L) 309
G. Lee, R&D inefficiency with bundling in systems markets (L10) 25
S. Ambec and P. Barla, A theoretical foundation of the Porter hypothesis (L22)355
D.L. Weisman, Strategic sharing in regulatory regimes (L51)361
K. Togo, Productivity convergence in Japan's manufacturing industries (L60) 61
